**COMMUNITY EFFORT** - Members of the Fleur de lis Garden Club, the Primera Bautista Church, Rotary Interact Club and Boy Scouts had a share in community beautification Saturday as well as Cameron residents who donated redbud trees for planting along US 36. It took team effort under the leadership of Mrs. Don

Humble to collect the young trees, plant and water them. Mrs. Richard Freeman watches as Danny Matula, Mrs. Louis Elley, Monte Humble, Don Mitchell and Steve Smith dig, add peat moss and water. Wayne Elley (foreground) also helped. Peat moss was donated by Gordon Baskin.

## 107

With F.M.L.

People are interested in the outcome of the Carr-Tower race in Texas and the general shift to more moderate representation in Washington.

Like the landslide for Lyndon Johnson in 1964, the counter was predictable.

The American people remain middle of the road, but admire individual virtues that the group claims, but does not necessarily possess.

The shift from Kennedy pragmatic idealism through Johnson legislative wizardry to an interim period of evaluation is complete.

Having rejected Goldwater's bid to turn back the clock two years ago, the American people voted to slow it down. The tempo of Great Society legislation over-heat.

One can wonder about the "back-lash" influence, whether the white community really rejected the social legislation helping the Negro or the Negro's overt rebellion in city and suburb. The American people voted against the anarchy of a Stokely Carmichael and that tenor.

107-107-107

The decision to advance through "New Frontier" and the "Great Society" has thus been put off Vietnam, inflation and perhaps regional issues caused the delay.

Senator Tower's re-election followed established Texas precedent for giving a candidate a second term if his first term was basically representative. From precinct to Senate, this applies in the tradition of Texas voting. But for the exceptional candidate, like Governor Connally, a third term becomes quite another matter.

107-107-107

We hope that general ballots, who ever prints them, become more manageable in size. The problem of reading through 16 amendments Tuesday only heightened our belief in the need for modernizing the Texas Constitution, which was tagged with the 16 addendums.

107-107-107

The Herald, incidentally, would appreciate the opportunity of bidding on printing the ballots or what have you. It doesn't seem too much to ask of good government. We are just about a hundred feet from the Milam County Courthouse.

## City Approves Proposal

The Cameron City Council Thursday unanimously approved an Urban Renewal Planning Board report which included an application for planning funds from the federal government.

Following the council approval an application for \$57,581 was forwarded to the Urban Renewal area headquarters in Ft. Worth.

The Planning Board report showed a decrease in the area being considered for urban renewal. An originally discussed 29 block program has been reduced to 3 blocks bounded approximately

by Fannin St., East 2nd St., Travis Ave. and Gillis St.

Perrin pointed out that the Board felt the 20 block area plan would be too costly. Boundaries of the 3-block plan extend only to the property line.

E. A. Perrin, chairman of the Cameron Planning Board, said \$36,081 of the total request would be administered by the local Planning Board and \$21,500 for professional planning consultants.

Of the locally administered funds, \$11,269 is earmarked for administration (general director,

secretary, office rent, utilities and incidentals for a 6 month period), \$5,400 for land surveys and appraisals and \$400 for legal counsel. A reserve and contingencies fund of \$14,954 is also included in the locally administered total request.

Perrin pointed out that the reserve fund would probably not be drawn, but would be available in case of need, and that the Board felt that they would be able to reduce some of the administrative expenditures.

He added that the planning consultants fee was set by the Urban Renewal Agency on the basis of a percentage of the total program.

The request also included a \$258 project inspection fee.

Perrin said approval or disapproval of the planning fund request would probably take 3 to 6 months. He added that the city would have no financial outlay for the planning program and that no payments would be made to the consultants unless final plans are executed.

Planning Board members are: Perrin, chairman; Monroe Fuchs, vice chairman; Miss Mildred Thornton, secretary; Jim Camp, Bill Burns, Porter Young and Albert Hajovsky, who succeeded Don G. Humble.

Humble is now legal counsel, having resigned from the Board before his appointment.

fraudulent disposition of mortgaged property, April 15.

Jerry Reeves, Thorndale, malicious mischief, July 17.

C. J. P. Powell, Lancaster, fraudulent disposition of mortgaged property, August 15.

Grand jurors were: Henry Richter, J. P. Fuchs, George Brett, A. L. Raymond, John Clark, Brown Ely, Alton Backhaus, Arnold Glaser, R. B. Eichenhorst, foreman L. N. Ezzell, John Schaaf and secretary Bill Gause.

## Library Approves Magazines, Books

The Cameron Library Board Monday night approved annual subscriptions to a dozen magazines for daily library usage and authorized \$500 purchase of new books for the Library Book Committee.

Cameron Order of the Eastern Star donated about six subscriptions.

Mrs. Frank Perrin was elected chairman of the book committee succeeding Don G. Humble, who resigned due to a heavy workload.

The new magazines will include current copies of Time, Life, Saturday Evening Post, Saturday Review, Harper's, Holiday, National Geographic, Popular Mechanics, Popular Electronics, Today's Health, Newsweek, U. S. News, Reader's Digest, Sports Illustrated, some of which already are on library shelves.

Five newspapers are available for readers.

Permanent plastic covers for current magazines were authorized by a board vote, according to Frank M. Luccke, Board president.

The Board also reviewed a recent application for a \$5,000 book grant forwarded to the Texas Library System. The grant application was approved by the City Council and forwarded last week.

If approved, the additional \$5,000 in fund funds would be added to the Library's approximate \$4,500 for the purchase of about 2,000 books in the next nine months.

The Cameron Public Library book count has risen 400 to 4200 plus in the past five months, not including books loaned by the Texas Library System for special display.

The Library book committee met following the Library Board meeting Monday night, and began selections of fiction and non-fiction works for the first purchase.

## TOWER HOLDS

### SENATE SEAT

#### IN LIGHT VOTE

Milam County polled an expected 4 to 1 margin for all Democratic candidates in Tuesday's election except in the senatorial race where Republican incumbent Sen. John Tower ran only 237 votes behind Democratic nominee Waggoner Carr. Tower carried the state with 54 percent of the vote.

The total vote in Milam County was unofficially set at 2940, about 1,900 off the normal vote for an off-Presidential election year. A peak vote in Milam County would be about 3500 in a Presidential election year.

In local or district contests only the congressional race was contested. Democratic incumbent W. R. (Bob) Pease won easily in the 11th congressional district and polled 2113 votes against Conservative candidate Laurel N. Dunn's 118.

Total votes for local, unopposed, Democratic nominees were: Murray Watson Jr. for State Senator 18th district, 2792; Milton Schiller State Representative 27 Dist. 1740; Grady Allen for District Clerk, 2789; O. B. Harden for County Judge, 2803; Wayne Wieser for County Clerk, 2846; H. D. Maxwell for County School Superintendent, 2795; Charlie J. Maddox for County Treasurer, 2793.

LaVert C. McKinney received 1113 votes for re-election as Commissioner, Precinct 2 and Jess Brock received 962 votes for re-election as JP, Precinct 1.

R. H. McCasland was re-elected Commissioner from Thorndale with 429 votes. Jim Swanzey polled 221 votes for JP, Precinct 3; Leonard Allen, 841 votes, JP Precinct 4 and E. C. Hoppe, 271 votes, JP Precinct 8.

An unofficial count of votes in Milam County shows: Governor - Connally 2199, Kennedy 519, Gillespie 6, Logan 10, United States Senator - Carr 1574, Tower 1337, Holland 29.

Lt. Gov. - Smith 2346, Dibrell 482, Johnson 38.

Attorney General - Martin 2325, Stewart 320, Williams 26.

400 Friends Stage

Appreciation Dinner

For J. C. Culpepper

John Cecil Culpepper Sr. was honored by 400 friends at a surprise appreciation dinner at Ramada Inn, Bryan, November 3. Culpepper was credited with development of at least 12 subdivisions in Bryan - College Station, several apartment complexes, Ridgeland Shopping Center, Towne Square Shopping Center and Manor East Shopping Center.

He was an original member and served two terms on the State Real Estate Commission and was a member of the board of directors of the Texas Real Estate Association for 12 years.

Master of ceremonies for the occasion Sen. William T. Moore said, "Cecil first came to the community arriving a family truck. He was in the candy business with his brother H. P. Culpepper in Cameron. He saw opportunity in a 'cow pasture' across state highway 6 from the Texas A&M campus and arranged for its purchase.

Sen. Moore said "I know of no man who has contributed more to the growth of this community than Cecil Culpepper."

Moore introduced members of Culpepper's family including Mr. and Mrs. H. P. Culpepper, Mr. and Mrs. Wallace Culpepper, Mr. and Mrs. John Henderson Sr. and Mr. and Mrs. John Henderson Jr. of Cameron. Other out of town guests included former Houston Mayor Neal Pickett.

Among telegrams and letters received were congratulatory messages from Gov. John Connally and Attorney Gen. Waggoner Carr.

A leather bound volume containing telegrams, congratulatory letters and signatures of those attending the dinner, was presented to Culpepper by Coulter Hoppes.

"A part of this tribute tonight is also to Mary Lake (Mary Lake Henderson formerly of Cameron and Culpepper's late wife).

**HONORED IN BRYAN** - John C. Culpepper, formerly of Cameron and now of Bryan, receives this plaque and commemorative volume at an appreciation dinner. From left are: U. S. Cong. Olin E. Teague, Culpepper, Coulter Hoppes, of Bryan. The Bryan realtor was termed "A Special Kind of Man."

Sidewalk Garage  
Sale To Benefit  
City Sewing Class

A garage sale benefiting the Cameron Community Sewing Class will be held Saturday, November 19 at 106 N. Central. Articles will be sold on a commission basis according to Mrs. John Henderson Jr.

The 'sidewalk garage' sale proceeds will be used for additional equipment to be used in the weekly sewing classes. About 15 Cameron women are now attending the class each Thursday morning in the office formerly occupied by Dr. Joe Parker on North Central.

Mrs. Henderson said the women are learning to make clothes for themselves and their families. Anyone wishing to place items in the garage sale may call OX-7-2372.

Bulldogs Clinch  
District Title  
With 44-12 Win

The O. J. Thomas Bulldogs put together a group of second half drives to defeat the scrappy Smith Panthers 44-12.

The Bulldogs took the kick-off and returned it to the 23 yd. line. The first play from scrimmage Ray went 70 yds. Holloway later scored from the 7. At half the Bulldogs held a close 14-6 score over the Panthers. The Panthers took the second half kick-off and ran it back 93 yds. for a TD. The Bulldogs then put together scoring drives for 4 more TD's. The Bulldogs scored on runs by Holloway and Petty and 3 TD's by Ray. Also a pass from Smith to Townsend. PAT's were scored by Nelson, Townsend, Ray. Next week the Bulldogs face double A Calvert.

TFB Reviews USDA Statistics  
Defending Farm Role In Prices

A 24-point analysis of U.S. Department of Agriculture statistics show "the farm is falsely accused of being a prime cause" of food price increases.

This is substance of a release from Texas Farm Bureau received by The Cameron Herald from officials at Milam Farm Bureau. Salient among the background on Farm and Food Prices is the point that 70 cents of every dollar of gross farm income last year was for production expenses, the TFB survey shows.

Further, "Farmers receive less than half the dollar consumers spend for most food products, average 39 cents of the consumer food dollar in 1965."

It states further: "Farm production expenses totaled \$31 billion compared with \$25 billion in 1957-59."

In 1965, consumers spent \$77.5 billion for food products originating on U.S. farms with farmers receiving \$25.5 billion and the balance going for marketing services. Of a \$17 billion increase in farm food expenditures since 1957-59, about one-fourth (\$4.5 billion) went to farmers, the report shows.

The report says "the greater-than-average increase in food prices in the last year reflects: and consumer income, greater food use by the military, strong export demand, and some reduction in total supply of livestock products (second quarter beef prices up 12 percent over same period 1965 while crop prices were down 2 percent)."

The survey goes on to say that crop year 1966-67 should see farm "Rising levels of employment prices stabilize retail food prices."

Other points developed by the USDA include:

"Index of prices farmers pay for commodities, interest, taxes, and wage rates increased 12 percent from 1957-58 to 1965," compared with a rise of 10 percent in the overall consumer price index and a 9 percent increase in retail food prices.

Statistics show that higher net incomes for farmers in 1965 were translated into \$1 billion in new tractors, \$2 billion for other machinery, purchase of one of every 15 trucks, \$2.1 billion for automobiles (twice 1960) among other expenditures.

Finally, the report shows that food as a percentage of income was 18.2 in the second quarter, 1966, 18.4 percent in 1964, 20 percent in 1969, 22.2 percent in 1950 and 24.6 percent average 1947-49.

The eight-page survey elaborates with numerous statistics the farmer's position that he has not contributed to increased farm food prices during the past year.

Diabetes Week  
November 13th to 20th

There are too many unknown diabetics, so this week is set aside to urge every susceptible person to make a safety check. Because there are no discomfort pains at the onset of diabetes, this disease can cause serious harm before normal discovery.

If there is a history of any diabetes in the family and especially if overweight, diabetes is a hazard. About one out of every 50 has it. A quick easy test is to dip a strip of testing paper in the urine. If there is a color change showing sugar, a more positive test by a physician is a "must." We stock this testing paper in our very complete Diabetic-Aids section.

### Entries Invited For Christmas Parade

Clubs organizations and churches in Cameron and the surrounding area are being invited this week to participate in this years Christmas Parade, according to the Cameron Chamber of Commerce.

The parade, which annually marks the opening of the Christmas season in Cameron, will be Saturday, December 3. Joe Moehring has been named parade chairman.

Following a plan instigated by last year's committee, float entries will again be judged on a central theme, which is "Christmas in Song and Story". Plaques will be awarded to the top three floats in the parade and will be judged on use of theme.

### Girl Scout Award Presented To Three At Church Service

The coveted Salve Regina Award was presented to three Cameron Girl Scouts in a special ceremony Sunday at St. Monica's Catholic Church.

Judy Hollas, Linda Hollas and Diane Bryant were recognized at the 8 a.m. Mass Sunday and presented with the Catholic religious award by Rev. John Geiser.

More than a year of study and preparation go into completing the 11 requirements for the Scout award.

for the 18AA championship.

The Yoemen earned the respite last Friday when they held onto a 13-8 lead at Giddings with a last-minute interception, clinching a third 17AA crown. Wayne Kirk, YHS fullback, pulled in a first-down Giddings pass to end a final Buffalo threat.

Kirk led Cameron's offense as well with a 4-yard average in 19 carries. Cameron touchdowns by Leo Michalka in the second and Don Mitchell in the fourth quarter came on short jabs at the big Buffalo line.

McKinney converted after Michalka's three-yard dash. A two-point try for extra point failed after Mitchell's sneak. Mike Miller tried a field goal late in the final quarter, narrowly missing.

Cameron gained over 300 yards rushing and passing, but found the 190-pound Buffalo line stingy within the 20's.

The Buffalos led for about a quarter after Charles Dibbles sprinted left end for 11 yards and the lone touchdown, capping a 62-yard march.

Larry Zoch's pass to James Dubcak for a two-pointer put Giddings in the lead for the first time.

Cameron's team effort brought the Buffaloes' undefeated district skein to an end. Kirk, Don Manley and Michalka spurred a Yoe offense to 18 first downs while Yoe forwards Dennis Rose, David Kratochvil, David Barrett, Jimmy Kopriva and Steve Smith smothered Giddings for 89 net yards rushing and but 6 first downs high and low.

Defensive backs Ray Urban, McKinney, Michalka and Al Hefft and safety Glen Fogle allowed only 32 Giddings yards in the air.

Quarterback Mitchell hit 8 of 11 shots for 120 yards. Hefft broke to the Buffalo 9 with a Mitchell

series in the first quarter. The drive was thwarted.

The first Cameron drive after the kickoff went 53 yards before the first of several Giddings stands led by linebackers Ron Urban and Zoch stopped it.

After Hefft's race to the Buffalo 9 later, the Buffalo line rose up to throw back the Yoemen once again.

The third Cameron drive succeeded, moving 65 yards in four quick plays, preceding Michalka's score. The Yoe halfback took a Mitchell pass 47 of those yards.

The second Cameron score came on fourth down after a drive of 45 yards. Mitchell dove the score.

Near the close, Kirk's interception stopped any final hope Giddings had of recovering the lead.

## DIPLOMATIC POUCH

WASHINGTON DC. The following letters were recently answered by the Department of State.

In a document from the Bureau of Security and Consular Affairs concerning travel to the Arab countries and Israel, I read that United States citizens of Jewish faith are restricted in travelling to the Arab countries. It is even more disheartening to be told that although "the United States is flatly opposed to such discriminatory

practices, and has repeatedly and strongly protested against them to the countries concerned," these practices persist. How can the relatively weak Arab countries flaunt our nation in its reasonable request that all her citizens be treated equally?

L. N. O., II  
Toledo, Ohio

Dear Mr. O.:  
We're firmly opposed to policies of foreign countries that discriminate against Americans because

of their religion. We have made clear this position on numerous occasions and our embassies have not hesitated to raise the matter with other governments when circumstances warrant.

From long experience we have found that the best way of making real progress in eliminating discriminatory practices is to approach other governments firmly but quietly within diplomatic channels. The record shows that over the course of years there has been a gradual diminishing of discriminatory practices in the Arab countries; U.S. diplomatic efforts can take part of the credit for this

trend.  
The enclosed article from the Des Moines Register refers to the Russian Embassy renting a summer place in Virginia near a government installation. I don't know why we should bend over backwards time and again to accommodate the Russian Communists. The Russians should not be permitted to take over the site in question; there are plenty of other locations that they can acquire.  
E. S. F.  
Ottumwa, Iowa  
Dear Mr. F.:  
The United States Government

has a system of closed areas restricted to travel by Soviet citizens in the U.S. which reflects the security requirements of this country as well as restrictions placed on American citizens who travel in the USSR, Clarke County, Virginia, where the Russians will have their summer camp, has not been restricted to Soviet travel. While there are government installations in the county, as is the case of numerous other counties in the capital area, they are not of a nature which presently require this kind of protection.

In past years, the Soviet Embassy has rented summer homes on the Chesapeake Bay. This also was permitted when the locations chosen were in open areas. Our Embassy in Moscow enjoys comparable privileges.

# MFB Resolutions Hit Government Programs

The Milam County Farm Bureau re-elected V. L. (Buck) Angell president and adopted 6 resolutions covering cotton research, allotments and classing, government programs, and livestock.

Officers elected to serve with Angell are E. E. Dodd, re-elected as 1st vice president, H. M. Yager, 2nd vice president and Miss Lenora A. Bickett, re-elected secretary-treasurer. Wm. F. Arthur is General Service Agent and Eugene Rose is Special Service Agent in the insurance department.

The Milam County Farm Bureau with a membership of 1203 will send 13 voting delegates to the Texas Farm Bureau State convention November 13-16 in Corpus Christi. Delegates will be Mr. and Mrs. V. L. Angell, Mr. and Mrs. Robert Jungmann, Mr. and Mrs. A. H. Jungmann, Mr. and Mrs. Oscar Heintze, Mr. and Mrs. Roy Newton, Mrs. Vaughn Thawatt, Mariama Massengale and D. M. Phillips.

Others planning to attend the

convention will be: Danny Thawatt who will participate in the State Talent Find accompanied on the piano by Miss Christi Clark of Cameron, and William Arthur.

Resolutions from Milam County to be forwarded to the state convention are:

1. Opposition to the \$1 per bale check-off on cotton for research and promotion if it is administered by the Secretary of Agriculture. Favor the cost for this research and promotion be distributed between the farmer, ginner, oil mills and cotton warehousemen. Favor that the administration of this program be in the hands of the Cotton Council or some other group that is interested in the producer's welfare.

2. Strongly recommend that something be done to insure a fair cotton class from the government classing office, and not use the lowering of cotton grades to lower the price of cotton to the producer.

3. Favor censure of the Department of Agriculture's consumer oriented programs that are promoted in order to control domestic and export prices of agricultural products.

4. Recommend that the Texas Legislature appropriate increased funds to the Texas Agricultural Experiment Station for expanded research for the solution of Texas agriculture problems. From this, we specifically recommend the initiation of an accelerated Swine research program to carry out comprehensive studies to determine the value and how to use the various sorghum grains, soybean and cottonseed meal and other protein sources (guar and peanut meal) to maximize profits in commercial hog production. Comprehensive studies are needed to permit development of economical plans and management programs for confinement raising of Swine and extensive research for more effective control of Swine diseases.

5. Recognize the necessity of the use of electrical prods in movement of cattle in local auctions, but urge and recommend some research be made as to the amount of current needed for efficient movement of cattle. We (Milam Farm Bureau) feel that excessive use damages future gain and health of animals. Further fear if cattlemen do not police this matter themselves some humane society might be more severe.

6. Recommend that allotted cotton acreage be frozen in each county.

Resolutions committee included: Calvin Cobb, chairman, Charlie Duncan, Robert Jungmann, John A. Smith and H. M. Yager.

Farm Bureau directors are: V. L. Angell, Ernest Dodd, Morris Coward, Mrs. S. W. McClaren, Henry Richter, A. T. Swazy and John A. Smith of Cameron, H. M. Yager of Maysfield, Henry W. Abel, Robert Jungmann, Mrs. Edwin Lehmann, and Albert Slovak of Buckholts, W. A. Conn, D. M. Phillips of Thorndale, Ed Miller of Burlington, H. L. Woods of Milano and Charlie Duncan, Vaughn Jensen and Preston Perry of Rockdale.

Guest speakers at the state convention will include Gov. John Connally, Walter Randolph of Montgomery, Alabama, American Farm Bureau vice president, and Jack Angell, Chicago AFBF Radio TV director.

## Betty Orr, Jistel Honored At Gold Star Ceremony

Betty Margaret Orr and Arthur Jistel, the 1966 Milam county 4-H Gold Star Girl and Boy, were honored at the District 8 Gold Star Banquet held at Tarleton State College in Stephenville, Saturday, November 5.

The Gold Star Award is the highest county award given to one 4-H Club boy and one 4-H Club girl in a county. Its purpose is to recognize outstanding leadership, achievement and contribution to the county 4-H program.

Betty Margaret, daughter of Mr. and Mrs. Robert Orr of Rockdale, has carried projects in Clothing, Citizenship, Home Improvement, Leadership, Safety, Foods and Nutrition, and Beef during the six years she has been a 4-H Club member. She has held many club and council offices, and is currently 4-H Council Secretary. She has served as a Clothing and Recreation junior leader.

Arthur, son of Mr. and Mrs. Richard Jistel of Cameron, was High Individual in the Poultry Judging Contest at the 1966 State 4-H Roundup. His was the highest score ever made in this contest. He has held six offices in his local club and assisted with camp programs during his nine years as a 4-H Club member. Arthur has had Livestock, Poultry, Horticulture, Electricity, Field Crops, Conservation and Home Ground Beautification projects.

Dr. W. O. Trogon, President, Tarleton State College, was guest speaker for the event. The District 8 agents, Miss Annie Lucy Lane, and Mr. John E. Burleson, presented each of the Gold Star boys and girls from the 19 counties in the district, a framed certificate and Mr. Weldon Groves, representing the County Electric Coops in the district, presented each with a special gift.

Others attending the banquet from Milam county were: Mr. and Mrs. Robert Orr, Mrs. Richard Jistel, Mrs. Gabriel Garza, 4-H Adult leaders, and Ronald Bailey, John E. Snell, and Carol Bennett, county extension agents.

# HD Club Notes

By Carol Ann Bennett

The Home Demonstration Council will meet at the Rockdale State Bank Monday, November 14, at 2 p.m. Final plans will be made for the Countywide Home Demonstration Christmas Party and the Pecan and Food Show to be held November 19.

If you've checked your calendar lately, you probably have realized that it's only a few more days until Thanksgiving.

It's time to place your order now for the traditional turkey, if you haven't done so already. Shopping a little early assures you of getting just the size bird you want. To be sure of quality, you'll probably want to buy a bird that has been graded by the U.S. Department of Agriculture's Consumer and Marketing Service. Birds have to be inspected before they can be graded, so you're automatically assured of wholesomeness.

Aside from the time that is needed for thawing frozen turkey in cold water, keep both the turkey and giblets in the refrigerator until time for cooking. Then check to see that all pinfeathers have been removed. Rinse the bird inside and put under cold running water and blot dry.

Slow oven roasting in an open pan assures a very flavorful and

evenly browned turkey with a minimum amount of shrinkage and juice loss.

After the inside of the turkey has been washed, the cavity should be salted and stuffed, if desired. Tie the wings in place or in there is a band of skin above the tail, tuck the legs into it.

Brush the skin with soft butter. If you use a meat thermometer, place it in a thick, meaty part like the thigh, so it does not touch bone and can easily be read. Place the turkey on a rack in the roasting pan to keep it out of the juice.

Sometimes turning the turkey is just too difficult. You can get good results by roasting the turkey breast side up for the entire cooking period. To prevent excessive browning and drying out, cover the bird with a piece of cheesecloth dipped in melted fat or a tent of aluminum foil.

Roasting time is affected by the size of the turkey, and whether or not it is stuffed.

There are several quick ways to tell if the turkey is done to tender perfection. The drumsticks should twist freely and the joint break easily. The meat in the fleshy areas like thighs and breast should feel soft when pressed with the fingers. If a meat thermometer is used, the internal temperatures should register at the poultry mark - around 190 to 200 degrees F.

## Poultry Meeting Slated For Rockdale

By Ronald L. Bailey  
Asst. County Agent

Two poultry meetings will be held in Rockdale this month. On Monday, November 14, Dr. Charles Hall, Poultry Pathologist, Texas A&M University, will present a program on Poultry Sanitation and Diseases. On Monday, November 21, Mr. Ben Wormeli, Texas A&M University, will present a program on Poultry Housing. Due to the increase in poultry production in the county, the poultry committee felt that these subjects would be of utmost importance to all those in the poultry business and those who are thinking about entering the business.

The Milam County Pecan and Food Show will be held Saturday, November 19, in Rockdale. The Rules for the Pecan Show are:

1. Entries will be limited to Milam county. 2. Exhibitors may enter as many classes as they wish but are limited to one entry per class. 3. All entries should be at the show by 9 a.m. on Friday, November 18 and remain in place until 4 p.m. Saturday. 4. All pecan entries should be entered in plastic bags with name of grower and variety attached. 5. Must have 100 entries in the county show to be eligible for the State Pecan Show. 6. Pecan entries will consist of one quart of pecans. 7. Pecans exhibited must be from the 1966 crop. 8. Pecans must have been grown by person exhibiting them, and 9. Pecans not picked up by 4 p.m. will become property of the Pecan show.

Bring samples to the County Agents Office or Anderle Lumber Company in Cameron, or Mr. M. S. Pugh in Rockdale.

## Tax Booklet For

### Sr. Citizens Lists

### Special Benefits

Internal Revenue Service offices have made available a free guide which outlines special tax benefits for people who are 65 years of age and over.

The 18-page booklet is called "Tax Benefits for Older Americans", and was prepared in cooperation with the President's Council on Aging. This guide is of special importance to retired persons living on a fixed income, says Miss Leota C. Lane, Extension family life education specialist at Texas A&M University.

A simplified explanation of how the provisions of the Federal income tax laws apply to older Americans is included in the guide. Tax-saving information discussed in this booklet includes an explanation of benefits for a surviving spouse and head of a household, added exemptions for age and blindness, and the amount of tax credit which is allowed for retirement income.

Three tax bill changes which became effective in 1964 are explained as they apply to senior citizens. These changes are: (1) the minimum standard deduction and how it may reduce tax liability; (2) all allowable medical expenses as fully deductible for taxpayers 65 years or older; and (3) revision of the income tax requirement on the sale of a personal residence.

Following the procedures outlined in the booklet may result in substantial savings on your 1965 income tax, reminds Miss Lane. Obtain your copy of this guide from the nearest Internal Revenue Service office and use it in preparing your tax return this year, she suggests.

## The Youthful Laureate . . .

There is nothing sere about the brow upon which the New York Philharmonic has placed the crown of "laureate conductor." The laurels are deserved. Leonard Bernstein, with his restless and theatrical genius, has brought the appeal and appreciation of orchestral playing in New York to a pitch unknown since the heyday of Toscanini. And the wonderful thing is that this can be already written and said at a half-way point in his career. Mr. Bernstein, still in his forties, is simply giving up full-time conducting to devote more time to composing.

Mr. Bernstein is thoroughly and genuinely American—as American as Aaron Copland, perhaps the only other living figure in the world of American orchestral music whose renown reaches virtually all corners of the globe. But perhaps it is indicative of the road that Mr. Bernstein has yet to travel as a composer that the outside world knows him best for the haunting but hardly enduring loveliness of "West Side Story"—and not for anything that

would normally appear in a program of the Vienna Philharmonic or of the New Philharmonia in London. Only the churls would complain if Mr. Bernstein produced now another "West Side Story." Yet he must know that the general expectation of him is for more monumental creativity with which to buttress and elevate America's young but growing and distinctive culture.

Mr. Bernstein's very Americanhood lies partly in his democratization of music. His remarkable television programs for young audiences—which we hope will continue—have brought music to the people in a way that is perhaps the twentieth-century equivalent of drama in a public amphitheatre in the golden days of Athens. What we need from him now is transmission into his creations of his energy and his fantasy, refined by his manifest aristocratic sensitivity.

To the tributes of others at this half-way house in an already dazzling career, we add our tribute to Mr. Bernstein—and our expectation.

## New Agriculture Chairman . . .

The defeat of a congressman in North Carolina seems to have little to do with representation in Texas except when the defeated incumbent is Ben Harold Cooley, chairman of the House of Representatives Agriculture Committee.

Cong. W. R. Poage, of Waco, re-elected for perhaps the 17th term, is now in line by seniority to take the reins of the House Agriculture Committee.

He will be assuming the role, when the 90th Congress convenes, at a historic time for American agriculture, historic in many ways.

The utter demand for foodstuffs and fibre around the globe is beginning to overwhelm the current U.S. system of allotment farming. Other than cotton, crops are beginning to show short. Wheat, for example, and its stockpiles are coming down.

This suggests that Cong. Poage will see agriculture enter a new era, that of greater production which perhaps heralds the renewal of the small town (above 5,000 in this modern age). He may see the need for the reversal of some restrictions that demand creates. He may view the greatest regeneration of agriculture production the nation has seen in the 20th Century.

Why? An American President, President Johnson, has committed this nation in peace as much as in war in Southwest Asia, and ultimately the whole of Asia.

That would widen prospects for foodstuffs. Europe does not need feeding, but certainly India and much of Asia, discounting Red China, does.

So his may be a historic role in agriculture in that government is so involved in agriculture.

### Educators Back Kindergartens

AUSTIN — Addition of kindergartens to the public schools will be a major school proposal in the 1967 session of the Legislature.

State Board of Education has recommended it. Texas State Teachers Association feel it is vital to public education, and will support the board's position.

Expanding the public school system to 13 grades is advocated by educators on the ground that children learn more quickly at age 5, and simply because more education is needed for this complicated world. It would, of course, increase the cost of public schools by one-twelfth, at both state and local levels.

School teachers will press for a pay raise to lift Texas salary levels to the national average, but will let the Board of Education carry the ball on the kindergarten proposal.

**SCHOOL COST RECORD** - Last year's price of \$647,516,531 for the minimum operation of Texas public schools set a record, but State Education Commissioner J. W. Edgar says the "minimum foundation fund" will be even greater this year - \$667,857,000.

Fund, which is distributed according to the needs of the school district and its average daily attendance, draws its resources from two state sources: the available school fund, including a fourth of all occupation taxes by the state, and other state revenues.

Of last year's total, \$123,439,886 was furnished by the school districts themselves, and the rest by the state. Figures do not include federal aid.

**EAST TEXAS OIL** - Railroad Commission has been given proposals by five oil companies for changing the method of allocating oil allowances in the East Texas Field to eliminate what the companies said was discrimination.

Atlantic Richfield, Mobil, Sun, Cities Service and Superior oil companies all put forth widely different plans to eliminate both inequities within the field between marginal and profitable wells and inequities between the East Texas Field and other fields in the state.

City of Kilgore, Kilgore Chamber of Commerce and other local governmental bodies oppose all changes.

**HIGHWAY BEAUTIFICATION** - "Texas faces the prospect of losing about \$20,000,000 a year in federal highway funds," Lt. Gov. Pres. Smith said, if it does not conform fully with the federal Highway Beautification Act of 1965.

Smith pointed out that, in writing the Act, the federal government included a 10 per cent penalty in federal aids to states that do not cooperate fully with the provisions of the new law.

State must fulfill its part by seeing that billboards and other outdoor advertising are moved back 600 feet from interstate and federal-state highways. Garbage dumps and junkpiles can be no closer than 1,000 feet. This would involve approximately 17,500 miles of Texas highways.

**TOURIST DEVELOPMENT** talks - "Imagination: Dare to Use It" will be the theme of the second annual Governor's Tourist Development Conference November 22 in Austin, Gov. John Connally will head the participants.

Experts in various fields of tourist development and tourist promotion will meet with delegates to the conference, along with administrators of Six Flags Over Texas and San Antonio's HemisFair '68.

**SCREW-WORMS DECLINE** - Screw-worm epidemic in Texas appears headed for an end. Only 97 cases were confirmed to the Animal Health Commission during

the week of October 22-28, compared to 197 three weeks before, at the height of the infestation.

Dr. S. B. Walker, executive director of the commission, said the geographic area of the epidemic seems to be narrowing, too. Most serious areas are in Dimmitt, Val Verde and Maverick Counties. At the crest of the infestation, the southwest one-third of the state was involved.

**BUILDING PERMITS DECREASE** - Estimated value of building permits issued in Texas during September showed a sizable decrease from August's, the University of Texas Bureau of Business Research reports.

Declines both in residential and non-residential permits accounted for the fall of a seasonally adjusted 23 per cent from Austin and 11 per cent from September.

## OLD PHILOSOPHER

Editor's note: The Old Philosopher on the Yequa takes a look at a new piece of legislation.

Dear editor:

Now that the election is over I can get around to a piece of news I read in a newspaper a few weeks ago.

According to it, Congress has passed a bill allowing tax payers to indicate on their income tax form that they want one dollar of their money to go to financing the next presidential campaign.

It's figured that if 60 million people do this, the number who file income tax reports, that'll give 30 million apiece to the Democrats and the Republicans, so they can finance their campaigns without becoming beholden to private contributors.

I have thought about this and, in the same way I handle most big problems, have come to no conclusions.

At the same time, however, I can detect a possible trend.

If the people are going to be taxed, and that's what it amounts to, to finance the Presidential campaigns, what's going to keep Senators, then Congressmen, then Governors, then State Represen-

tative, then Sheriffs, then Constables and Justice of the Peace, from thinking up the idea of getting in on the same deal?

And if the people are taxed to finance all campaigns, wouldn't this mean politicians could start raising your taxes even before they got in office? Some people say this would be giving them an unfair headstart.

On the other hand, everybody knows the oddities of the present system, where a man will spend 50 times as much to get elected at the office pays. Outside of farming, I guess politics is the only profession where you can spend more than the job pays and still stay in business. I can tell you how this can be done in farming, but am unequipped to politics.

I don't have any answer to these problems, but the fact remain it costs more and more to get a man elected, and sometimes a lot more than that to allow him to stay there.

Yours faithfully,  
J. A.

## Letters

449 North 18th Street,  
Grand Junction,  
Colorado 81501  
Nov. 4, 1966

Mr. Editor:

Please give me space in The Herald to plead in defense of the mourning and the turtledoves, and to show why they must have the protection of the law at all levels of government if they are to survive the hunters' guns as living species of life. Our doves are our most comely birds, yet they are the most hunted, harassed and persecuted birds of this century.

Each year over 70 per cent of all doves are eliminated. Some by the forces of nature, but most doves are destroyed by so-called American sportsmen.

The legal kill for 1964 was estimated at 20,000,000 doves, with a crippling loss of 26 per cent of the bag. This left a near six million birds with broken legs, wings and pinions to suffer days, even weeks before God in the form of death set His own free. There were many more millions killed from wires with slingshots, with BB guns, and by men and women who never learned "the manhood"

of reverence for life.

We ask, how long can our children know "the wings of a dove covered with silver, its pinions of green gold?" Or the voice of the turtledove in our land? For indeed it is a sad state of affairs when man can only measure beauty down the barrel of a shotgun, or life through the sights of a high-powered rifle.

With 75 per cent of all doves killed off each year, they will soon join the long list of vanished life, and again man will find himself much poorer in living beauty, but the lust to kill, the greed to destroy, the shedding of blood, and the lack of pity and mercy in the thoughts of men must be satisfied.

Thank you.

Howard H. Caudle

## Rotary Foundation

### Marks 50th Year

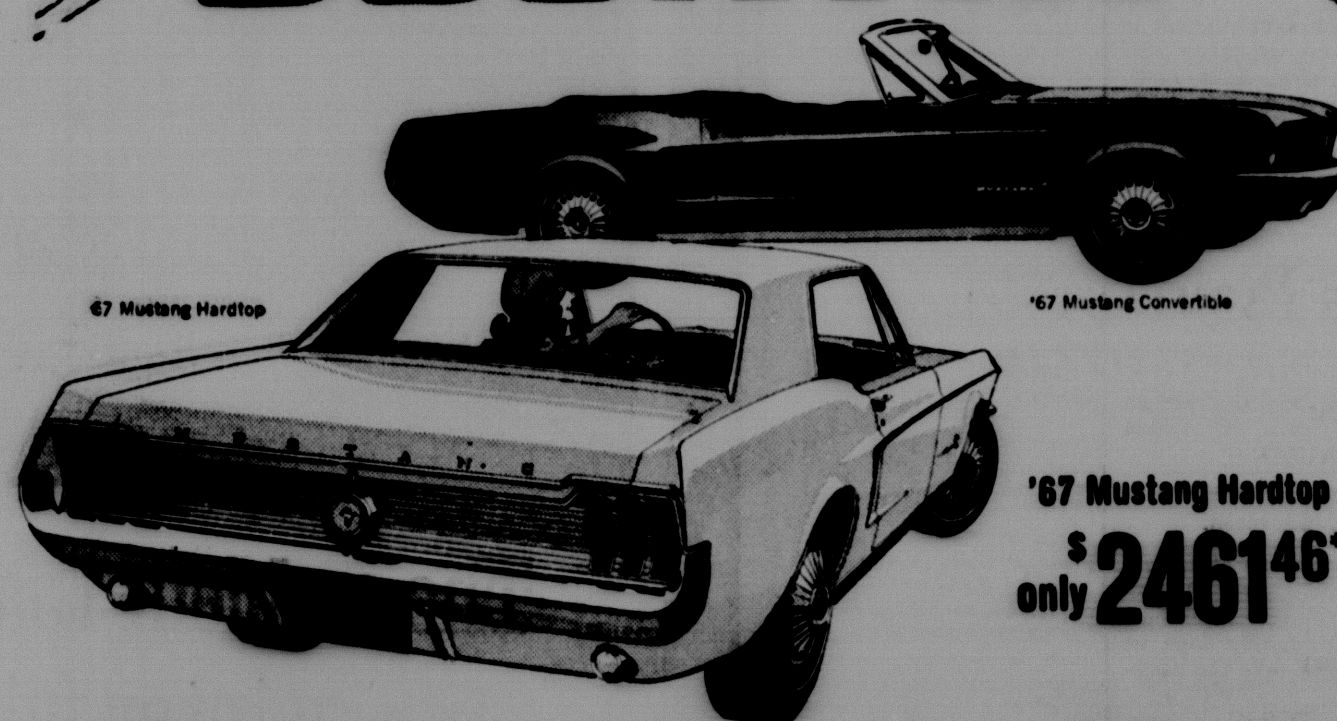

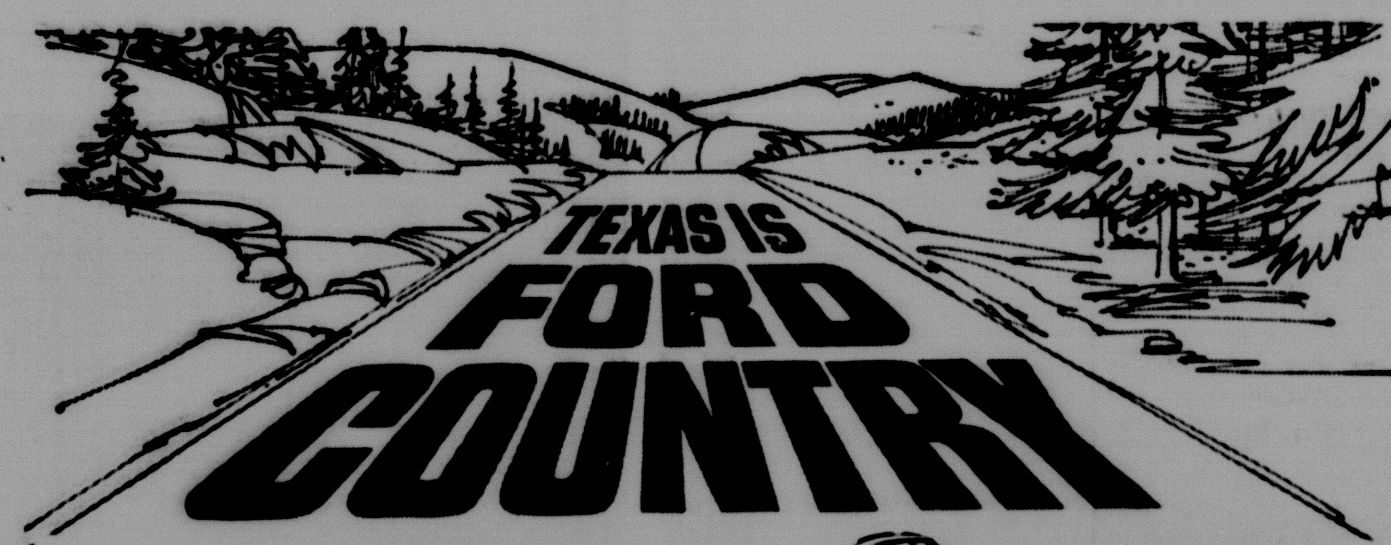

### Of World Program

The Rotary Club of Cameron will join more than 12,500 other Rotary clubs in 133 countries in next week's world-wide observance on "The Rotary Foundation Week," November 13-19. This year's celebration marks the beginning of a year-long observance by Rotary clubs everywhere of the 50th anniversary of The Rotary Foundation, according to club president Frank Luecke.

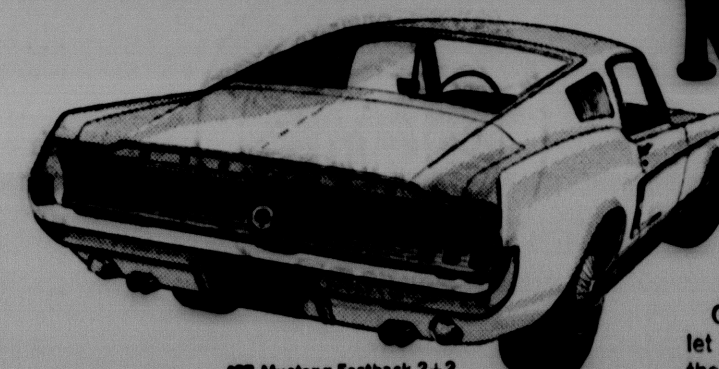

The objective of the Foundation is to further understanding and friendly relations between peoples of different nations. Supported by contributions from Rotary clubs and Rotarians around the world, the Foundation received more than \$1 million last year.

Since 1947, when a program for graduate study abroad was begun, The Rotary Foundation has awarded 2,300 Rotary Fellowships at a cost of more than \$6 million. Recent awards for the 1967-68 academic year totalled more than 160 and represent \$500,000 in Fellowships.

To enlarge its work in the field of international relations, the Foundation recently added two activities to its program: Awards for Technical Training to enable young men to improve their skills by studying in another country, and Group Study Exchanges of teams of young business and professional men between different countries. More than 450 persons throughout the Rotary world receive awards each year.

## HERB'S HANGOUT

THE CHURCH FOR ALL  
ALL FOR THE CHURCH

The Church is the greatest factor in the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

An alley off Grover Street . . . headquarters for a "big operation." This is Herb's hangout. And Herb is "the boss!"

Here the kids report for their assignments. Here the loot is divided. Here strategy is mapped out for the next foray against a rival gang.

An alley off Grover Street . . . and while a proud community hardly lifts an eyebrow, tomorrow's underworld is growing, flourishing.

Two blocks away is old Trinity Church with its Sunday School, its Youth Fellowship, its dedication to God. What a difference old Trinity could have made in Herb's life; what character might have been molded among the boys who are now "Herb's gang!"

But Herb's folks and the parents of the other boys are among the millions of Americans who are unchurched.

## THE FAMILY LAWYER

Strangers in Our Midst  
"And if a stranger sojourn with thee in your land," says the Bible, "ye shall not vex him."

More than 3,000,000 resident aliens sojourn with us in our land. Inevitably, they are subject to various rules pertaining to their special status - rules about immigration, registration, naturalization and deportation.

But what about their everyday activities? Legally, how do resident aliens stand in comparison with citizens? How much do we "vex" them?

In most respects, they have the same status as citizens. They have the same right to live in physical safety, to win redress in our courts, to exercise freedom of speech, press, and religion.

They have the same guarantee against double jeopardy, self-incrimination, cruel or unusual punishment, the taking of their property without due process of law.

And they have the same duty to obey traffic laws, to live up to their contracts, to pay income taxes.

Nevertheless, they may lawfully

be set apart in ways logically related to their lack of citizenship.

Thus, aliens are denied the right to vote. For, traditionally, the power of the ballot belongs only to those who, by birth or naturalization, are members of the nation's political partnership.

What about earning a living? Here, too, discrimination based on racial grounds is lawful. For example:

A law banning aliens from the liquor trade was held valid, because that occupation has a potential relationship to crime. The court said lawmakers might reasonably expect less regard for our laws from aliens, who do not share the governing process, than from citizens, who do.

On the other hand, an effort to keep aliens out of the laundry business was held unconstitutional. The court could not see any peril to the public welfare in the mere doing of laundry by aliens. Pointing to the "equal protection" clause of the Constitution, the court said:

"The Fourteenth Amendment is not confined to the protection of

## Outdoors In Texas

By Vern Sanford

Some shooters seem to think when they go to the skeet range they are throwing money away. But that isn't exactly so.

Time and money spent on the skeet range can result in a considerable saving in the field.

There is nothing like a little clay-bird practice to sharpen the eye and co-ordinate movement. Both are needed in the field.

While there is a wide difference between shooting at clay birds and the live birds arising from a fast flush, or doves moving in through a pass, the same principle is there. You've got to get the gun to the shoulder and be sure of your lead. This ability can be developed on the skeet range.

Presently a great deal of attention is being turned on what is known as "Crazy quail." This type of shooting isn't exactly new, but it seems that more shooters are talking about it now than ever before. The "game" got started around Dallas and has spread to other spots in the state.

For instance, there is a crazy quail pit on that famous Y. W. Ranch near Mountain Home. Charles Schreiner III put it in last year when the Texas Outdoor Writers Association held a fall meeting there. Since then many have shot over the trap and it is a great place to sharpen the shooting eye.

In this sport only one trap is used. It is in a concrete lined pit about six feet in the ground. Something like an underground cistern. Operator of the trap sits comfortably in the pit and awaits your call for "pull." And that's the last control you have over the bird.

The trap is on a revolving stand. Of course this means that the clay bird is likely to leave in any direction. It can be going away from you, to the right, or to the left, straight away, or coming back directly over your head.

Yes, it's crazy, but it's lots of fun. Some very fine field shooters have confidently stepped up to their position, called "pull" and fired their shot without even touching the clay saucer. Each shooter gets his chance at 10 birds. Then it's the next man's turn.

Most shooters nowadays use single barrel guns, in the repeater, auto class. They go out with full chokes. This is fine when the bird is going away, but not so fine when the bird is coming directly back over the shooters head.

That's when he wishes for a modified or even an improved cylinder. Some of the better shooters say they like the modified best for all-round shooting at the crazy quail pit. It shoots just as far as the full, but it's pattern spreads wider. This accounts for more hits, resulting in more birds down.

As a rule one shot will at least chip the target, thus counting for

a dead bird. With the full pattern of the tight choke more shot will either hit the bird or miss it entirely.

Gun clubs now are a part of nearly every city's planning. Driving along the highways you frequently see signs pointing to the local gun club's shooting range. Some of these are nicely located and are used late in the afternoons or on the weekend. Most of them also have ranges, in connection, where shooters can sight in their hunting rifles, too.

But if you really want to improve your aim, use up a box of shotgun shells every week or two, especially a few weeks ahead of the hunting season.

You may never break a possible (25x25), but you'll at least get in a lot of good practice. This will pay off during the hunting season, especially the first few trips out.

Then, too, there is something to the smel of powder that makes you feel better. This is especially true after you've done some "Dead-Eye Dick" shooting, whether at clay pigeons or live birds.
